

## Join us at the ILA Berlin 2024 (June 5-9)

Every two years, ILA Berlin brings the global aerospace industry to the heart of Europe. For five days, Europe's leading aerospace trade fair transforms Berlin into an international aerospace hub. Industry representatives, policymakers, armed forces and academia come together under the motto #PioneeringAerospace to discuss current challenges and opportunities. ILA features the entire value chain and every tier of the aerospace industry, from Aviation, Space and Defense & Support, to Advanced Air Mobility and the Supplier sector.

Guiding question is how the transformation of civil aviation to climate neutrality can be achieved. The unique Space Pavilion showcases the vital contribution of space travel for life on Earth - from climate protection and digitalization to security and mobility. The significance of mission-ready armed forces for the defense of our democratic values and the sovereignty of Europe lies at the heart of the military display. The Advanced Air Mobility exhibition is dedicated to the entire spectrum of unmanned aerial systems and electrically powered vertical take-off and landing vehicles (eVTOLs). In the International Supplier Center (ICS), the deep-rooted supply chain meets buyers from OEMs and tier-1 suppliers. Central topics range from climate-neutral flying and digitalization to the stability of the supply chain. In 2022, ILA Berlin welcomed around 72,500 visitors and 550 exhibitors from 80 countries all around the world.

**Pre-Arranged Company Meeting in a Small Group of TBIC Members**

**\$650 per meeting**

All individual company meetings will be charged after the show. For planning purposes, we ask our members to commit to a minimum number of meetings they wish to participate in. Once the detailed agenda will be made available (1-2 weeks prior to the show), members are free to pick and choose the meetings they would like to attend. Attending more meetings than the specified minimum number is possible.
